

MEMBERSHIP COMMITTEE Report

The Membership Committee is developing nicely. We still have a way to go before we are submitting good quality applications to Tim, but these things take time. Things are improving.

Tim processed 61 new-member applications in 2014.

Tim processed 7 supplemental applications in 2014.

Tim has processed 20 new-member applications so far in 2015.

Nine of the 20 new-member applications have already been approved this year - this includes Christopher K. Kerin who does not appear on the 4-16-2015 NSSAR Application Status Report because it was pended, and then approved on February 5, 2015.

Ten of the 20 new-member applications are in the pipeline to NSSAR and one is already there.

Tim also processed 1 supplemental application so far in 2015 and it is in the pipeline to NSSAR.

At this rate we are on target to meet or exceed the number of new members that we had last year.
